

Capabilities Statement

EW Consulting Inc.

Background Information

EW Consulting, Inc. (EWC) opened its doors on September 28, 2012 in southern California. EWC is an Architectural & Engineering firm that provides professional services in civil engineering, architecture, environmental, outreach and community engagement, training, and program and construction management. These services range from the concept phase through construction completion.

EWC is a women-owned engineering firm and was founded by Eliza Jane Whitman. Eliza Jane is a licensed civil engineer through the state of California with over 28 years experience working in the industry. Her experience includes planning and designing large and small public infrastructure projects. Work includes water and wastewater treatment, sewers, stormwater, recycled water, air emissions, and regulatory requirements. Many of the water and wastewater projects involved automation improvements, database development and analysis, upgrades, and expansions. Also, she has been involved in strategy development, technical advisory reviews, managing project and program planning and designs, construction and operations of major water and infrastructure projects for international, federal, state and local agencies and private utilities and developers in the United States, Europe and Asia. Eliza Jane has worked for both public and private entities and understands the goals, objectives and challenges from all perspectives.

Services

Energy

- Energy Efficiency
- Water Energy Nexus
- Net Zero/ Sustainable Energy Water Design
- Renewable Energy

Water

- Water Resources
- Stormwater planning and low impact design
- Watershed planning and management
- Integrated urban and water resources planning
- Water Supply
- Imported water
- Water banking and trends
- Water conservation
- Groundwater and recharge
- Water and wastewater treatment
- Recycled water

Services

Environmental Services

- CEQA/NEPA Document Preparation and Mitigation Monitoring
- Water Quality- report development and testing
- Air Emissions- testing and compliance reviews
- Watersheds planning

Professional Training & Community Engagement

- Government liaison and relationships
- Multi-day training
- Meeting and Stakeholder Facilitation
- Neighborhood awareness program assistance

Project & Construction Management

- Project Budget/Scope/Initiatives/Schedule
- QA/QC of plans and specifications
- Change order and contact reviews
- Permit applications
- SWPP development and reviews

Design Support Services

- CEQA/NEPA implementation reviews
- Multi-engineering discipline coordination for plans & specifications
- Budget management & scheduling reviews
